

[Statistical Software For Mac Buy](#)

A screenshot of the Octave (Debugging) software interface. The window title is "Octave (Debugging)". The interface is divided into several panes: a File Browser on the left showing a directory tree for ~/octave; a central Editor pane showing the source code for a function named 'sombbrero.m'; a Command Window at the bottom showing the execution of the 'sombbrero' function and a debug message; and a Figure window on the right displaying a 3D surface plot of the Sombrero function. The code in the editor includes a function definition with a grid size parameter 'n' and a plot command. The command window shows the function was stopped at line 62. The workspace pane at the bottom left shows variables 'zz', 'yy', 'xx', 'r', and 'n' with their respective dimensions and values.

```
56 ## Author: jwe
57
58 function [x, y, z] = sombrero (n := 41)
59
60 if (nargin > 2)
61     print_usage ();
62 elseif (n <= 1)
63     error ("sombbrero: number of grid lines N must be greater than 1");
64
65 [xx, yy] = meshgrid (linspace (-8, 8, n));
66 r = sqrt (xx.^2 + yy.^2) + eps; % # eps prevents div/0
67 zz = sin (r) ./ r;
68
69 if (nargout == 0)
70     x = xx;
71     y = yy;
72     z = zz;
73
74 elseif (nargout == 1)
75     z = zz;
76
77 else
78     error ("sombbrero: too many output arguments");
79
80 endfunction
81
82 %demo
83 %! c.lf;
```
