But before boarding arrives, going away from being being an internet sensation, life gets even worse by becoming the most feared wizard alive. His niece is taken away while Oz loses his power. This new world made him do terrible things while also making him feel empty inside. His friends believe that he is dead and they go to US and tell his niece about him. His new life as a bad wizard is not as bad as he first thought. The new Oz lives on with his niece and enjoys making money from flying tours to see him fly, donuts made from his magic fingerprints, and of course the original yellow bricks. The first appearance of a magical house is a red one, belonging to the Wicked Witch of the East. The Wicked Witch is close friends with Evanora and has a man named Carabosse as an acquaintance. In Oz: The Great And Powerful (2013), this is the second time that the Wizard gets into trouble with the witches for trying to take over from them from being their leader from being their leader. The first time was 1991's "Return To Oz". In it he ruled over his land just fine without problems whatsoever.
